From the Author...

Once I grasped the concept of making God's word personal, and making it my personal truths, my circumstances and surroundings began to change.

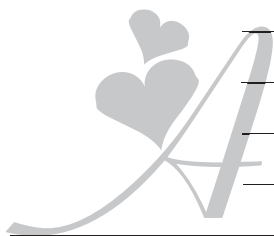

My hearing became so sensitive to words that I could hear from the mouths and hearts of people who so easily fall prey to the enemy's thoughts he plants regularly in our minds, that I created a simple "I Am" list. It has now become a book with every reader in mind.

I used to live in a prison of my own mind and thoughts contrary to God's word, but now I'm free. As an inspirational writer and speaker, I am compelled to make products that will encourage those in any type of prison.

The ABCs of God's truth are buried deep inside your Living Well. Spiritual truths are spiritually discerned, so read the "I am" affirmations with your Spirit and be motivated to begin changing your thoughts today!

We hope that this little book will bless you in thought, word and deed... to bring forth a positive change in your life!
